

COMMUNITY CARE SERVICE ROADSHOWS

Managers from Community Care are running a series of Roadshows throughout Shetland to inform people about the proposed policy on:

- Self Directed Support,
- Contributing to Your Care (Charging)

The Roadshows will also provide an opportunity for Community Care staff to drop in and find out more about these and other service developments within Community Care. Community Councils are also invited to take advantage of meeting with managers to hear about these changes and the way services will be provided in future.

Everyone is invited to attend the public sessions and if you cannot attend the Roadshow in your area, you are very welcome to attend any of the other Roadshows.
