

Candidate Profile – Dannii Coleman

Firstly I would love to become an MSYP because I would love to help the youth across Shetland with social skills, mental health problems and education because I think that is a very big part of Shetlands youth. I would love to help people to cope with any problems they have and for them to become more confident in themselves and also to just be happier in general.

I want Shetlands youth to be more connected in the community and feel like they matter because I feel like a lot of people nowadays don't feel like they should try and be a part of the community because they think people won't accept them and I really want to change that.

The issues that matter to me most are 'Mental Health', 'Education and Social Skills' like I have already said, because some people are really not confident in themselves and if they feel confident in themselves they could become happier and happier people makes a happier Shetland. What they suggest I really want to take on board and generate as much happiness in Shetland as possible because Shetland is becoming better slowly but I really want to help improve that even more.

I will listen to everything they say and try and make what they want to happen, to actually happen. I want to make them feel like they are being listened to and to make them feel like they are a part of this as well. I will keep them updated as regularly as possible and to keep asking them for their opinions in case they have changed.

I think people should vote for me because I really do want to make a positive change to Shetland's youth and make them feel in general more accepted and happier. I will try and fulfil everyone's requests and stay on top of it all, I would love to be a part of the MSYP I really like what they do and it will be an amazing two years experience for me. I will find a positive side to every situation, failure isn't always the end. I will truly listen to their views and opinions even if I don't agree with it, I just think of myself as a messenger bird, their the ones with the amazing ideas. I have hope for every situation they have.
