# Welcome to Shetland Boat Week 2019

Shetland Amenity Trust is very proud to present the fourth year of maritime heritage activity with Shetland Boat Week 2019. The programme is back to full strength this year with many new events, activities and features. The organising committee are particularly proud of, and grateful for, the collaboration and co-operation between the sponsors, clubs, organisations and individuals, without which, this festival would not be possible.

The ambition of Shetland Boat Week is to encourage and enable the use of boats of all kinds, by all ages. No less important is getting people on the water and reviving the passion for Shetland's maritime heritage, by encouraging the maintenance of traditional boats and retention of traditional skills.

This programme of events facilitates access to a range of maritime themed activities for all ages. Many events take place in and around Hay's Dock in Lerwick, with active encouragement to visit the nautical offerings from Unst to Sandsayre and everywhere in between.

Thank you for taking part in this year's festival and a very special thanks goes to our 2019 Shetland Boat Week Sponsors:

Chair, SAT

# Unst Boat Haven

Unst Boat Haven is run by the Unst Heritage Trust and is a fantastic place to visit for anyone with an interest in boats, or social history. The Boat Haven was first set up by Duncan Sandison, initially in the Swedish Kirk at Baltasound. This sadly blew down on 1st Jan 1992 and Duncan then built the present Boat Haven which was opened on the 14th May 1994 by Rob Anderson. The visitor attraction celebrates it's 25th anniversary this year.

The building includes 21 full sized boats of various types and a toy boat for bairns to play in. The boat collection includes examples from local builders Robbie Nicolson, Willie Isbister, Lowrie Isbister and Willie Mouat. There are also boats by other builders throughout Shetland, which allows the visitor to see clearly the differences in build style in different areas.

Displays and artefacts also cover local history including the herring and Haaf fishing, First World War submarine artefacts, and a model of the sixareen "Winter Witch" which notably survived the Gloup disaster in 1885. The full size sixareen, Far Haaf, sits in the covered shed in the grounds of the Boat Haven. An impressive sight to see.

The Unst Boat Haven is open from 11am - 4pm Monday to Saturday, 2pm - 4pm Sunday, 1st May to 30th September. There will be a special exhibition of Jim Tait's maritime paintings in May and June 2019.
