

UHI Shetland Campus Redevelopment

Information Coffee Morning for Local Construction Companies and Trade Specialists

UHI Shetland has embarked on a journey to relocate to the Scalloway Campus and redevelop this site. We would like to invite you to an information coffee morning so that you can hear more about what we are planning.

These projects will involve a significant amount of construction work, from simple classroom modifications to the reinstatement of currently mothballed buildings, and we want local firms to be well informed about the opportunities ahead. By sharing our plans early, we hope to ensure that when quotes and tenders are issued for the various works, Shetland-based contractors are aware of them and well placed to secure the work.

The event is being held:

Friday 30 October at 11:00am at the UHI Shetland Scalloway Campus.

Teas, coffees and refreshments will be provided. This session will be an informal session, with the chance to ask questions and meet the project team.

Please let us know if you can attend, and how many people from your organisation will be joining us. If you are unable to make it but would still like to be kept informed about future opportunities, please get in touch and we will make sure you are added to the contact list.

We look forward to seeing you there.
